WELFARE NEWS
Message From SunSmart Schools, Cancer Council
This is just a quick reminder that UV levels across Victoria are now below three so sun protection measures are no longer recommended unless outdoors for extended periods or at the snow.
So you can pack away the sunscreen and sun hats until September when UV will be on the rise again. To be sure, it’s a great idea to keep an eye on the daily sun protection times if you can. When UV levels are below three it will say, “Sun protection not required”. The sun protection times are available in the weather section of the newspaper, on the SunSmart website and via the free SunSmart app. You can look up a location closest to you to get a better idea of what UV is doing in your area.

MCG NEWS
MCG MEETING - Our next MCG meeting will be held Tuesday 16th June at 2.30 p.m. in the multi-purpose room. We would love to see you there.

Michael Grose…..Parenting Ideas

“What does your child do that someone else relies on?”

Most people shift a little uneasily when I ask this question in parenting seminars! It’s not meant to make you feel guilty. It’s meant to provoke some thought and make a point about developing responsibility in kids.

I’m often asked by parents how to develop responsibility in kids. The answer is simple – give responsibility to them! Let them feed the family pet, empty the dishwasher, clean up the living area at the end of the day. Most kids rise to a real challenge when it’s sincerely given, and backed by realistic expectations.

We tend to give responsibility to the kids who don’t need it – the easy kids. But we often ignore the kids in our family who really would benefit from giving them some trust – the difficult kids, those that require following up, or some parental work.

Kids belong in two ways to families – they either belong due to their positive contribution or they belong through poor behaviour. The family pest has as much cache as the responsible child – their parents know they are around!!!

It makes sense for parents to work hard to provide opportunities for kids to contribute to their family so they feel valued for what they bring to their family, rather than for what they take.

Here are three practical tips to promote a sense of responsibility in your kids:

1. Start early: Children as young as three are keen to help and take some responsibility but we often push them away and say, ‘You can help when you’re older.’ Train your kids from a young to help themselves and others.

2. If a child forgets then no one else does the task: If a child doesn’t empty the dishwasher then it still there when they come home from school. Sounds tough but that’s how the real world operates. When you empty it, it becomes your responsibility.

3. Don’t give kids jobs where you have an emotional attachment: Give them tasks that you know that you can live without if they are not done, or not done to your standard.

Another thing! Many parents call this type of responsibility ‘jobs’ or ‘chores’. I prefer to call it ‘help’. It’s just a little rebranding, but it reflects what it’s about.
